Mission definition
Satellite configuration design
Frequency coordination IARU
Frequency coordination ITU
Mission payload design and development and test
Bus development
Satellite software development
Satellite integration & testing
Ground system development at each country
Ground system software revision
Addition of new GS to the network
End-to-End test
Operational plan & rehearsal
Satellite delivery to JAXA
Launch to ISS
Release & Operation
Disposal
Mission Definition Review (MDR)
Preliminary Design Review (PDR)
Critical Design Review (CDR)
